# PERFORATED CABLE TRAYS

## Features

- Manufactured using high grade raw materials.
- Industrial Grade Strength.
- Highly Durable.
- Easy to install.
- Available for light duty, medium and heavy duty applications.
- Wide range of perforated cable tray accessories to choose from.
- Excellent on site integration & safety.

## Usage

- All manufacturing units
- Showrooms
- Parking Lots
- High Rise Buildings
- Residential
- Malls & Hotels
- Hospitals
- Solar Projects

## Material/Finish

- PAINTED
- PRE-GALVANIZED
- POWDER COATED
- HOT DIPPED GALVANIZED

# LADDER TYPE CABLE TRAYS

## Features

- Manufactured using high grade raw materials.
- Industrial Grade Strength.
- Highly Durable.
- Easy to install.
- Robust design
- Available for light duty, medium and heavy duty applications.
- Wide range of perforated cable tray accessories to choose from.
- Excellent on site integration & safety.

## Usage

- Government projects
- Heavy duty industries.
- Tunnels

## Material/Finish

- PAINTED
- PRE-GALVANIZED
- POWDER COATED
- HOT DIPPED GALVANIZED

# RACEWAY CABLE TRAYS

## Material/Finish

- PAINTED
- PRE-GALVANIZED
- POWDER COATED
- HOT DIPPED GALVANIZED

## Usage

- Underground wiring projects.
- Dyeing units.
- All type of industries

## Features

- Raceway are known for its excellent quality as well as cost effective cable protection system.
- These fittings provide cable protection in both lay-in and pull-through cable installations.
- Raceway provides superior strenght for any dry location.
- Single and dual compartment attractive raceway design.
- Provides functionality and flexibility with aesthetics for single or dual service applications.

# BOX TYPE CABLE TRAYS

## Usage

- Garments Industries.
- Fabric Industries.
- Paper Industries.
- Chemical Industries.
- Plastic Industries.

## Features

- Manufactured using high grade raw materials
- Industrial Grade Strength.
- Highly Durable.
- Easy to install.
- Robust design

## Material/Finish

- PAINTED
- PRE-GALVANIZED
- POWDER COATED
- HOT DIPPED GALVANIZED

# CABLE TRAYS COVERS

OUR CABLE TRAY COVERS COUPLED WITH THE CABLE TRAYS SYSTEM PROVIDE ADDED PROTECTION FOR THE CABLES FROM ENVIRONMENT ELEMENTS, FALLING OBJECTS, SUNLIGHT.

## Features

- Manufactured using high grade raw materials.
- Industrial Grade Strength.

# SLOTTED ANGLE RACKS

Slotted angle helps you build an efficient framing system for a variety of uses Slotted Angle is the most versatile, time and cost effective construction material available for building shelving, cases, racks or any other type of structure

## Features

- Easy to identify a product and replace it.
- Efficient framing system.
- Available in Painted, Power coated & Galvanized finish.

# PIGEON HOLE RACKS

A pigeon hole rack is a type of storage system which has been designed to store the products in racks which are in shape of pigeon holes. The pigeon hole racks are like a tabular form with multiple number of rows and various number of columns in each row.

# HEAVY DUTY PALLET RACKS

A pallet rack is a storage system which is designed to store the materials on pallets. There are a large number of varieties of pallet racks which have horizontal rows and multiple levels for storing the materials in the storage space.

## Features

- Racks are widely used in Industrial Warehouse.
- Customized as per client's specialization.
- Easily adapts to the vast and full range of products need to be store.

# FABRIC RACKS

We are manufacturing a wide range of Fabric Racks in Ludhiana, India. Racks are made using high quality raw material. These racks are widely used in Industrial Warehouse and in various industries for storage purpose. Our heavy duty shelves rack is easy to install, simple and maintenance free. This can be customized as per client's specification.

## CANTILEVER RACKS

Cantilever Rack, also known as furniture or pipe rack is a great solution for storage of long, bulky materials such as lumber and PVC or metal pipes. Furniture rack is a style of cantilever racking that can be decked to provide static storage similar to pallet racking, with the advantage that it provides easier storage and retrieval of bulky or oddly sized material than traditional pallet rack.
